

Welcome to a changing world

### Pixsys 2000-xx Energy Meter

### Pixsys 2000-xx Energy Meter

The energy meter is a single-phase energy / power meter able to measure TRMS current AC/DC and voltage up to 800V AC or 1000V DC.

On RS485 Modbus are available:

Irms, Vrms, Ipk Vpk  
Watt  
Var  
Va  
Frequency  
Cosfi  
energy ( bidirectional)  
THD

The device is fully configurable by our free software

#### Other features:

Din rail mounting  
4KV galvanic isolation for voltage input  
0.5% accuracy  
TRMS measure  
RS485 intergrated
